*For Dual Duty, please note that these shades are dyed with reactive dyes to achieve the chroma and cannot resist bleaching treatment.
 For Dual Duty, the cotton wrap is dyed with different dye type comparing to dyestuff used for the physical thread tassel. It is recommended to review the colour against shade card thread tassel under D65 illuminant.
 We make every effort to ensure continuity of shade however a slight variation in shades can occur in threads made with different raw materials including natural and recycled fibres.
